Material Safety Data Sheet

Revision Date

2021

1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING			
Product name	Acc III		
Product code	FG-AccIII		
Recommended use of the chemical and restriction	is on use		
Recommended use	For research use only		
Restrictions on use	For research use only		
Details of the supplier			
Company name	Nippon Genetics Europe		
Address	Mariaweilerstraße 28-30, 52349 Dueren, Germany		
Emergence contact number	(+49)2421554960		
2. HAZARDS IDENTIFICATION			
Classification of Hazards and dangerousness No relevant classification			
Warning article including prevention methods			
Pictorial symbol	No information available		
Category	No information available		
Hazards and dangerousness	No information available		
Prevention methods			
Prevention	No information available		
Action	No information available		
Store	No information available		
Discard	No information available		
Other hazards and dangerousness (NFPA) not incl	luded in classification		
Health	1		
Fire	1		
Reactivity	0		

	3. COMPOSIT	ION/INFORMATION ON INGREDIENTS		
	Material name	Usual name	CAS No.	Amount (%)
Glycerin		GLYCEROL	56-81-5	40 ~ 60

	4. FIRST AID MEASURES
Eye contact	Take medical action immediately.
	Immediately rinse skin and eyes thoroughly with plenty of running
	water for at least 20 minutes.
Skin contact	Take medical action immediately.
	Immediately rinse skin and eyes thoroughly with plenty of running water for at least 20 minutes.
	Remove contaminated clothes and shoes and isolate contaminated area
	Completely wash clothes and shoes before reuse
Inhalation	Remove to fresh air
	CPR when there is no breathing
	Provide Oxygen when breathing is difficult
	Take medical action immediately.
Ingestion	Do not provide any food for unconscious person
Note to physicians	Take protective action according to the material
	Do not inject adrenalin
5.	FIRE FIGHTING MEASURES
Proper (improper) fire extinguishing agents	Small fire: dry sand, dry chemical, alcohol-resistant foam, water spray, regular foam,
	CO_2 (suitable extinguishing agent)
	Large fires: water spray / mist, regular foam (suitable extinguishing agent)
	High pressure water (improper extinguishing agent)
Specific hazards from chemical compounds	Can be ignited by heat, spark, flame
	Container may explode on heating
	Some can ride, but not easily ignite
	May cause irritation and poisonous gas in case of fire
	Inhalation of the substance may be harmful
	Some fluids may cause dizziness, suffocation-inducing vapors
Protective equipment and procedutions for fire fighting	
Protective equipment and precautions for fire fighting	
Protective equipment and precautions for fire fighting Glycerin	No information available
Glycerin	No information available
Glycerin 6. ACC	No information available
Glycerin 6. ACC Personal precautions, protective	No information available
Glycerin 6. ACC	No information available
Glycerin 6. ACC Personal precautions, protective	No information available CIDENTAL RELEASE MEASURES Micro particles can ignite fire or explosion therefore remove all the sources of fire.
Glycerin 6. ACC Personal precautions, protective	No information available CIDENTAL RELEASE MEASURES Micro particles can ignite fire or explosion therefore remove all the sources of fire. Stop leak if it is not dangerous
Glycerin 6. ACC Personal precautions, protective	No information available CIDENTAL RELEASE MEASURES Micro particles can ignite fire or explosion therefore remove all the sources of fire. Stop leak if it is not dangerous Give attention to materials and conditions that should be avoid
Glycerin 6. ACC Personal precautions, protective	No information available CIDENTAL RELEASE MEASURES Micro particles can ignite fire or explosion therefore remove all the sources of fire. Stop leak if it is not dangerous Give attention to materials and conditions that should be avoid Do not enter the space without proper respirator or respirator until proper air (oxygen
Glycerin 6. ACC Personal precautions, protective equipment and emergency procedures	No information available CIDENTAL RELEASE MEASURES Micro particles can ignite fire or explosion therefore remove all the sources of fire. Stop leak if it is not dangerous Give attention to materials and conditions that should be avoid Do not enter the space without proper respirator or respirator until proper air (oxygen concentration 18 ~ 23.5%) is available.
Glycerin 6. ACC Personal precautions, protective equipment and emergency procedures Environmental precautions	No information available CIDENTAL RELEASE MEASURES Micro particles can ignite fire or explosion therefore remove all the sources of fire. Stop leak if it is not dangerous Give attention to materials and conditions that should be avoid Do not enter the space without proper respirator or respirator until proper air (oxygen concentration 18 ~ 23.5%) is available. Prevent entry into waterways, sewers, basements, and confined spaces. In case of small leakage, flush contaminated area with large amount of water In case of small leakage, absorb with sand and non-combustible material and place in container.
Glycerin 6. ACC Personal precautions, protective equipment and emergency procedures Environmental precautions	No information available CIDENTAL RELEASE MEASURES Micro particles can ignite fire or explosion therefore remove all the sources of fire. Stop leak if it is not dangerous Give attention to materials and conditions that should be avoid Do not enter the space without proper respirator or respirator until proper air (oxygen concentration 18 ~ 23.5%) is available. Prevent entry into waterways, sewers, basements, and confined spaces. In case of small leakage, flush contaminated area with large amount of water In case of small leakage, absorb with sand and non-combustible material and place in container. In case of large leakage, make a ditch away from liquid spills
Glycerin 6. ACC Personal precautions, protective equipment and emergency procedures Environmental precautions	No information available CIDENTAL RELEASE MEASURES Micro particles can ignite fire or explosion therefore remove all the sources of fire. Stop leak if it is not dangerous Give attention to materials and conditions that should be avoid Do not enter the space without proper respirator or respirator until proper air (oxygen concentration 18 ~ 23.5%) is available. Prevent entry into waterways, sewers, basements, and confined spaces. In case of small leakage, flush contaminated area with large amount of water In case of small leakage, absorb with sand and non-combustible material and place in container.

7. HANDLING AND STORAGE		
Precautions for safe handling	Note the substances and conditions to avoid	
	Wash thoroughly after handling	
	Note the high temperature	
	In case of material leakage, reduce the oxygen concentration in the air and cause suffocation in an enclosed space, so be careful not to spill	
	Check the oxygen concentration before entering the place because there is a risk of loss of consciousness or death due to oxygen deficiency at high concentration in the air	
	Keep this temperature below 20°C because this material evaporates slowly and reaches hazardous concentrations.	
	Do not spray because it will evaporate faster if sprayed	
Conditions for safe storage	Keep it tightly closed	
	Store in a cool, dry place	

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure standard of chemical compound, biological exposure standard		
Domestic regulations		
Glycerin	TWA - 10 mg/m ³	
ACGIH regulation	C C C C C C C C C C C C C C C C C C C	
Glycerin	TWA - 10 mg/m ³	
Biological release regulation		
Glycerin	No information applicable	
Individual protection equipment		
Respiratory protection		
	Use respiratory protection equipment certified by Korea occupational safety and health agency in a release of gas/liquid according to their chemical physical properties.	
	Use proper filter or half-circled respiratory protection cartridge equipment if the concentration of release material is lower than 100mg/m ³	
	Use proper filter or loose-fitting respiratory protection cartridge equipment such as hood/helmet shape motor operated equipment or continuous flow protection mask if the concentration of release material is lower than 250mg/m ³	
	Use proper filter or full face cartridge or motor operated half-circled equipment or half circled continuous flow air supply respiratory protection equipment if the concentration of release material is lower than 500mg/m ³	
	Use proper filter or full faced respiratory protection cartridge equipment or hood/helmet type, pressurized mask if the concentration of release material is lower than 10000mg/m ³	
	Use proper filter or auto air supply (SCBA) equipment or pressurized auto air supply (SCBA) respiratory protection equipment if the concentration of release material is lower than 100000mg/m ³	
Eye protection	Use chemical protection glasses and safety glasses	
	Install eyewash and emergency shower near work area	
Hand protection	Wear suitable chemical resistant gloves	
Body protection	Wear suitable chemical resistant clothing	

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance
State
Color
Odor
Odor threshold
рН
Melting point/freezing point
Early boiling point and range
Flashing point

Liquid Dark color to yellow color Dull No information available Neutral 20 °C 171 °C 160 °C ((c.c.))

Evaporation rate	No information available
Evaporation rate (solid/liquid)	Liquid
Maximum / minimum evaporation or explosion range	19 / 2.7 %
Steam pressure	0.0025 mmHg (at 50 ℃)
Solubility	water solubility :1000 g/L at 25 $^\circ\!\!{\rm C}$ solvent solubility: alcohol, ethyl acetate, ether insolubility, benzene, chloroform, carbon tetrachloride, carbon disulfide, oil ether, oil
Vapor density	3.1 ((air=1))
Specific gravity	1.2613 ((water=1))
n-octanol/ distribution coefficient	No information available
Self-ignition temperature	370 °C
Disassemble temperature	290 °C
Viscosity	954 cP (at 25 C)
Molecular weight	92.09

	10. STABILITY AND REACTIVITY	
Chemical stability and possibility of hazardous reactions		
Glycerin	No information available	
Situation to avoid		
Glycerin	No information available	
Materials to avoid		
Glycerin	No information available	
Harmful material produce by degradation		
Glycerin	No information available	
	11. TOXICOLOGICAL INFORMATION	
Information on likely routes of exposure		
Glycerin	irritation, difficult to breathe, area, vomit, diarrhea, headache, dizziness, Sleep disorder, kidney problem, paralyzed	
	Can absorb body by suction	
	Can be absorbed by suction and extinguisher	
	Through skin, digestive system, can absorb body by inhalation of aerosol	
	Able to absorb body by suction of steam	
	Can be absorbed by inhalation, skin and digestive system	
Health maleficence information		
Acute poison		
Oral		
Glycerin	LD50 27200 mg/kg Rat (rat/LD50/12600mg/kg(IUCLID))	
Ingestion		
Glycerin	LD50 > 10000 mg/kg Rat	
Inhalation		
Glycerin	No information available	
Skin corrosion or irritant agent		
Glycerin	No irritation on skin	
Serious eye damage or irritation		
Glycerin	No irritation on eyes	
Respiratory organ hypersensitiveness

Employment announcement

IARC	
Glycerin	No information available
OSHA	
Glycerin	No information available
ACGIH	
Glycerin	No information available
NTP	
Glycerin	No information available
EU CLP	
Glycerin	No information available
Germ cell mutagenicity	
Glycerin	Many color mammal red blood cell/negative
Reproduction toxicity test	
Glycerin	No information available
Special target poison (1 time exposer)	
Glycerin	No information available
Special target poison (long exposer)	
Glycerin	rat(inhale):1-4mg/l epiglottis epithelium
Absorption injurious	
Glycerin	No information available

12. ECOLOGICAL INFORMATION

Ecotoxicity

	LCOLOXICITY	
	Fish	
	Glycerin	LC50 5000 mg/ ℓ 24 hr Carassius auratus
	Crustacean	
	Glycerin	EC50 > 10000 mg/ℓ 24 hr Daphnia magna (Daphnia magna EC50(24HR) 10000mg/L(US EPA ECOTOX); Daphnia magna EC50(24HR) >10000 mg/L (EU IUCLID))
	Algae	
	Glycerin	(LC50(96hr) 77712.039 mg/L)
I	Residual fungicide and resolvability	
	Residual fungicide	
	Glycerin	No information available
	Resolvability	
	Glycerin	No information available
I	Life enrichment	
	Enrichment	
	Glycerin	No expected life enrichment
	Biodegradability	
	Glycerin	63 (%) 14 day Fast biodegradability (OECD SIDS), 93% biodegradability in 30 days (OECD TG 301D) (IUCLID))
;	Soil	
	Glycerin	No information available
(Other harmful influences	
	Glycerin	Environmental summary : No information on toxicity on aquatic organisms

13.	DISPOSAL CONSIDERATIONS
Waste treatment method	
Glycerin	No information available
Disposal considerations	
Glycerin	Dispose container and content according to the waster control act
14.	. TRANSPORT INFORMATION
ΑΤΑ	
Propriety shipping name	
Glycerin	No dangerous good in sense of these transport regulations
Hazard class	
Glycerin	No information available
Subsidiary class	
Glycerin	No information available
Packing group	
Glycerin	No information available
UN-No

16. OTHER INFORMATION

IUCLID (oral) SIDS (oral) SIDS (skin corrosive or irritant) SIDS (severe eye damage or irritation) NLM (Germ Cell Mutagenesis) IUCLID (specific target organ toxicity (repeated exposure)) OECD SIDS (fish) EU IUCLID (Crustaceans) OECD SIDS (Crustaceans) US EPA ECOTOX (Crustaceans) ECOSAR (agar) OECD SIDS (Enrichment) IUCLDE (biodegradable) OECD SIDS (biodegradable) OECD TG 301C (biodegradable) OEDC TG 301D (biodegradable)

Source of material

The above information was acquired by diligent search and/or investigation and the recommendations are based on prudent application of professional judgment. The information shall not be taken as being all inclusive and is to be used only as a guide. All materials and mixtures may present unknown hazards and should be used with caution. Since Nippon Genetics Europe cannot control the actual methods, volumes, or conditions of use, the company shall not be held liable for any damages or losses resulting from the handling or from contact with the product as described herein.

Questions about the information found on this MSDS should be directed to info@nippongenetics.de.
